Yard Needs Help!

Hilarity Promised At All Day Party

More hilarity was assured for The Marin Citizen's all-day show at Marin City on Sunday, July 16, when it was revealed this week that a softball team known as the Nine Old Men will play the Brown Bombers, women's team, a five-inning game as part of the affair. On the Nine Old Men team are such well-known characters as Mike Smith, Dan Allen, Jess Draper, Ed Anderson, John Batchan (all city councilmen), and Jim San Jule, editor of The Citizen. The game, according to those who should know will be quite a spectacle.

Meanwhile ticket sales were growing as residents learned about the unlimited possibilities for fun to be had at the all-day show.

Residents were again urged this week to get their tickets from Citizen carriers, from other volunteer salesmen, or at the Marinship Recreation Association office at Gate Three at the yard. Each ticket, which sells for \$1, is good for every event during the day, including the dance at night to the music of Art Articary and his San Francisco Band. Each ticket is also good for a chance for \$175 worth of War Bonds. Entire proceeds of the affair will go to support The Marin Citizen for another year of operation for the people of the community. Tickets may also be secured at the Marinship Hiring Hall.

Entry blanks for sign-ups for the marathon race and bicycle race will be found on page 6. Deadline for entrance to these two events is Wednesday, July 12. The marathon race will start at the ball park and will go up over the north hill, down to the south side of town and then back to the ball park. Any one can enter the marathon who thinks he can make it. Prize for the winner is \$5 in War Stamps.

The bicycle race is for young people 16 or under. Prize for the winner is \$5 in War Stamps.

The all-day affair is expected to be the largest affair ever to be held in Marin City.

Vacation School Will Start Next Monday

Vacation school will open at Star of the Sea Church, Sausalito, Monday, July 10, at 9 a.m., Father Henry O'Flynn announced this week.

The Sisters of the Holy Family, who will be in charge of the school, have arranged a full schedule of religious instruction, singing, needlecraft and woodcraft. Father O'Flynn said. They will be assisted in the various projects by the ladies of the parish.

The school, which will be for four weeks, will begin each day with Mass at 9 a.m., and will continue until noon. Arrangements have been made for the transportation of Marin City children to and from the school. They are to be at the local bus stop across from the market each morning not later than 8:45 a.m.

Nursery Can Enroll Nine Children

Nine more children can now enroll in the local nursery school, announces Director Rose Peterson this week.

A recent population shift in Marin City has made the openings possible in the nursery which has been enrolled to capacity.

Eligibility for registration are all children from two years to four years nine months whose parents are working.

Fees are 50 cents per day which includes full day time supervision by trained personnel, the care of a registered nurse, hot noon meal, afternoon and morning nourishment, and regular rest periods in the nursery's own sunny quarters at the Community House.

Interested parents should see Mrs. Peterson any time during the day at the nursery.

Register Now For Summer Camp Days

Register on Saturdays for the summer day camp on Paper Mill Creek, the Recreation Department advises all Marin City youngsters.

They can sign up every Saturday afternoon from 2 to 5 in the lounge room of the Community House.

Buses leave the Marin City school building two mornings a week, at 8:45 a.m., Mondays and Thursdays, to take the children on a free all-day outing at lovely Camp Taylor.

The only equipment necessary is a lunch, sweater, and 40 cents for bus fare.

Children are returned to the school building at 5:30 p.m.

Those youngsters who went to camp last week came back enthusiastic about its recreational facilities, and are clamoring for a return engagement.

When the bus load permits, children are allowed to go two days in each week.

Sport Flash

The Marin City Midgets defeated the San Anselmo grammar school, 9 to 0, at their league game in San Anselmo yesterday.

Lynn Roath, ace Midget pitcher, hurled his first shut-out game, striking out 13 batters.

A Letter

From the Editor

DEAR READER:

The Marin Citizen is a rather unusual newspaper. It is owned and operated by the people of Marin City through their democratically elected city council. It is the only paper of its kind in America. It is a non-profit enterprise.

The Marin Citizen is celebrating its first birthday by holding an all-day party on Sunday, July 16. Proceeds from the party will go to the paper so that it may continue to be delivered each week to all of the homes in the community.

Within the next week you will be approached to buy tickets to The Citizen's birthday party. We hope that you will respond by purchasing enough tickets for your whole family. The day's program is a bargain, you get a chance to win War Bonds and you help make secure the future of your own newspaper—all for \$1 a ticket.

If you have enjoyed the paper for the past year and want to see it continued into the future, be sure to get your party tickets.

Hope to see you on July 16th.

THE EDITOR.

Local Women May Train for Nursery Jobs

An opportunity for Marin City women to take child care training under an instructor from the University of California, will be offered here in the near future, says Mrs. Rose Peterson, director of the child care center.

The six weeks course will be given here free of charge to train local people for positions on the staff of the child care center.

The course is being financed by Federal Lanham Act funds. The classes will be two hours weekly, arranged for the convenience of women students—either afternoon or evening.

Mrs. Peterson said this week she anticipates a grave shortage of teachers in the center this winter. During the summer months, the children are being supervised by public school teachers who will leave in September.

She said that employment preference will be given to the local women who complete the course.

Director Peterson also pointed out that graduates of the course will serve as a steady supply of substitute teachers—women who do not want to work regularly but can be on call to fill in during the temporary absence of one of the teachers.

Those who are anxious to register now or who seek further information, are requested to see Mrs. Peterson at the child care center during the day time.

The classes will begin as soon as 10 to 12 women are registered.

4065 New Workers Are To Be Hired In Next Two Months

To House Women at Dormitories

One of the Marin City dormitories will soon be used to house women workers at Marinship, it was announced this week by shipyard and housing officials.

Use of the dormitory is part of a new Marinship program of recruiting more than 4000 additional workers during the next twelve months.

A total of 122 single women, or wives of service men, will be housed at one of the Marin City dormitories within the next two weeks. Other women workers will be housed at the dormitories as they are hired to replace men workers leaving for the armed forces.

The Marin City dormitories have been exclusively masculine since their first occupancy nearly three years ago. Other war housing dormitories in other shipbuilding regions have housed women workers a long time.

Women are urged to help Marinship turn out much needed tankers. The fact that housing close to the yard is being made available to women is adequate proof that Marinship is well pleased with the production records rolled up by women during the course of the yard's output.

Rooms for single women at the dormitory cost \$5.60 per week, including medical care.

Marin Falls Behind on 5th War Loan

Marin's Fifth War Loan, launched at a time when the men of our fighting forces began their victorious drive in France, has not fared as well as the campaign where lives are spent instead of money.

Marin CITY has failed to achieve one-half of its quota, with only \$10,082 subscribed on its \$22,525 quota.

Today, with only three days to go in the drive for \$5,061,846 in war bonds and stamps from Marin, central county headquarters reported that only \$3,132,294.75 had been purchased by residents of this area leaving close to two million dollars unsubscribed.

Umpires to Be Recruited Here

More umpires are needed for the Marin County Junior Baseball League, says the recreation department.

Interested adults should contact Jess Draper at A65-520 or John Batchen during the evenings at the Community House auditorium.

Marin City People Can Help Produce

A total of 4065 new workers is needed by Marinship between now and August 31, it was revealed this week by George Keeney, employment manager. Of this number, 1815 are replacements for workers who will leave the yards during the next two months while 2250 are additional employees needed for the yard's regular tanker program and naval oiler work.

An appeal to return to work went out to all former Marinship employees this week in the form of a letter from Keeney. Pointing out that the urgency of the present program has permitted the yard to establish an hour a day overtime for ship production crews, Keeney urged all of those who had worked at the yard to come back to help turn out tankers.

"Our production schedule is for the delivery of three ships per month and upon the com-

How to Go To Work at Marinship

Here is how a worker on a non-essential job goes to work at Marinship:

1) Go to the local United States Employment Service office and say you want to reply to Marinship's appeal for new workers, or

2) Wire or airmail George Keeney, Marinship Corporation, Sausalito, California, saying that you want to go to work at Marinship, or

3) Go to the Marinship hiring hall, 200 Caledonia Street, in Sausalito.

pletion of the Navy conversion job we will immediately go into a production program of four ships delivered per month," Keeney said. He further said, "We believe our yard has excellent future possibilities for work security."

Keeney said that it would help the tanker production program if persons working at Marinship would inform their friends and relatives on non-essential jobs to come to work at Marinship.

He especially urged Marin City residents to write friends back home, pointing out the employment possibilities at Marinship. Needed during the next two months are workers in all crafts. Both journeymen and helpers are being hired.

Marin City residents are urged to send this copy of The Marin Citizens to one of their friends or relatives who is not working on war essential jobs.

Navy Tankers Named For Rivers

When the six high-speed Navy oilers are launched at Marinship beginning about the middle of July, they will bear the names of important rivers of the United States and her possessions, it was revealed today.

William E. Waste, General Manager of the Sausalito shipyard, received information from the U. S. Maritime Commission and U. S. Navy stating that the first of these ships will be named U.S.S. Pasig. This is the name of a river in the Philippines.

It is expected that the other five ships in this special series now in production at Marinship will also receive names in conformance with the custom of naming Navy oilers after rivers with Indian names. Such names have already been applied to nine of the 141,000-barrel tankers built by Marinship in past months.

Names for the five other ships destined for conversion

at Marinship to fleet oilers have not yet been revealed.

It had originally been planned that these ships would bear the names of historic Spanish missions of Arizona, New Mexico and Texas.

These Navy oilers, of 16,500 tons capacity and powered by 10,000 horsepower turbo-electric motors, will receive special naval installations to make them the fastest and finest tankers being built in America.

Adoption of the river names by the Navy will cancel the Mission names originally applied to the ships by the Maritime Commission at the request of Marinship. Those names were, in order, Mission San Xavier, Mission San Lorenzo, Mission Santa Ana, Mission Alamo, Mission Los Angeles and Mission San Francisco.

New Worker Comes to Our USO Office

Mrs. Florence Fast left the staff of the USO Travelers' Aid office last week. She is now working as librarian in the Mill Valley public library.

Taking her place in the USO cottage here is Miss Margaret Hedden from San Rafael.

Miss Hedden has worked in the Richmond USO office, and is a graduate of the University of California.

Official Visit

Two USO Travelers' Aid officials, Mrs. Martha Scarlett, regional supervisor, and Miss Marjorie Battersby, assistant director of the program department, were visitors at the local USO cottage this week.

Mr. and Mrs. Lyle Morehead and daughter, Elaine, have moved to North Dakota, their former home.

Mrs. Otto Strauss is leaving Sunday for a two months visit in New Jersey with her daughter.

Mr. and Mrs. "Doc" Merrett of Rio Vista, spent the weekend with Mrs. Merrett's brother and family, Mr. and Mrs. John Gaynor, House 518.

New Services Inaugurated In Marin City

Three preachers this week announce new religious services at B7, Apt. 632. They are Rev. W. E. Franklin, Rev. E. D. Malone and Rev. J. D. Glover.

Sunday school is from 9:45 to 10:45 a.m. Evening service is at 7:30 o'clock.

Camp Taylor Was Built By Unions

Camp Taylor which is open for the summer for all Marin County children between the ages of 6 and 15 years, has overwhelming support from the labor unions.

Two weeks ago, Local 769, the Plumbers and Steamfitters Union, sent a full crew of skilled mechanics to the site. These men, under the leadership of Ed Culver, union delegate, took over the job of installing the water system. This project included running 600 feet of water pipe down a rough canyon from a new dam, built by members of the Marin County Recreation Department, into the camp area. There, the main lead pipe was branched and led to four outlets for use not only for the children of the day camp but for the general public who will also enjoy this beautiful redwood area.

The plumbing establishments cooperated with the men and furnished them with trucks and tools for the operation. A. L. Nelson Co. of San Rafael; Ernest Ongaro of San Anselmo, and the Sausalito Hardware and Plumbing Co., gave invaluable assistance.

Local 35, the Carpenters' Union, sent a fast-working crew under the foremanship of Charlie Nelson. This gang completed an 8x12 building which will be used for storage, emergency center, and snack bar for the convenience of the entire camp. The building fairly grew before your eyes. The men stepped up to the lumber pile and out of their midst the building appeared, complete with hardware in place before the men stopped for lunch.

All the men brought their families, hung swings for the children and with mounds of food, made an old fashioned day in the woods complete.

Local 291, the Hodcarriers'

Counsellors Take Training

Girl Scout counsellors who will staff the Day-camp July 17 to 28, attended the first training meeting at Scout Hall, July 6.

Miss Dorothy Erthle, executive director, directed training at this meeting and will announce further training dates later.

Building and Common Laborers' Union, offered valuable assistance in the form of a crew of men who were willing to do all those downright hard-work jobs which were necessary to put the camp in shape.

Members of the Marin County Recreation Department completed a 16-foot dam and a 50-foot bridge during the same Sunday.

Camp Taylor was ready for the first bus loads of eager children, thanks to the work of union men.

Sign Up Now For Red Cross Blood Bank Day

The Red Cross Mobile Unit will be in Marin City again on Friday, July 14.

Residents who wish to donate on Blood Bank day may sign up in the Rental Office today and tomorrow where Red Cross staff assistants will register them.

After July 8, residents may sign up to donate blood by contacting Mrs. W. C. Billingsley at A15-116, or leaving names at the Rental Office information booth.

Martin Leaves

Herbert Martin, fireman in the Marin City Fire Department for over a year, left his job here last week.

After having no days off for three months, Herbie declared he had to quit to get away from the fire station.

Midgets Capture First League Game

By GLEN BISHOP

The Marin City Midgets won their first league game last Sunday by beating Mill Valley. Score was 12 to 2. There were 15 base hits and two doubles, one by Bishop and one by Murry.

Pat Williams had a perfect day, four for four. There were two errors.

Marin City players were: Daugherty, catcher; Roach, pitcher; Wilker, first base; Es-

testes, second base; Bishop, shortstop; Williams, third base; Murry, left field; Uhl, center field; and Moorhead, right field. Umpires for the game were Gene Chaun and Arnold Justin.

Sausalito won from Fairfax this week because Fairfax failed to show up. Larkspur beat San Anselmo, 10 to 4.

This week the Midgets play San Anselmo at the Red Hill School in San Anselmo.

Cleanliness Is Health Medical Group Reports

The fly season is with us. Flies are dangerous. They carry various diseases, including infantile paralysis, typhoid fever and dysentery.

This is the warning this week of the medical committee of the Marin City Council after consultation with the Marin County Health Department.

The committee urgently asks all residents to:

- 1) Drain all garbage in sinks and put it in paper bags or wrap it thoroughly in newspapers before depositing it in the garbage can or barrel.
- 2) Keep covers on garbage cans and barrels at all times. Report missing covers to the rental office.
- 3) Put garbage in the garbage container, and bottles and trash in the trash container. Wrap all broken glass in paper and tie it so that garbage men will not be cut.
- 4) Wash out can or barrel with disinfectant whenever greasy. Flies breed in grease.
- 5) Do not let bottles lie around outdoors. They breed flies and are dangerous to small children and car tires.

flies and are dangerous to small children and car tires.

6) Clean around your house or apartment at least once every week. Pick up any bits of fruit or vegetables dropped by children. Such things breed flies. Cleanliness throughout the city will result in better health.

7) If your children eat fruit outdoors, train them to pick up the remains and put them in garbage containers.

8) Report the presence of any rats or mice to the rental office so that they may be done away with immediately.

Gerry Craner, technical director of the housing authority, has been making a great effort to improve the collection of garbage, the health committee said. It is collected every fifth day. Soon all garbage collectors will wear numbered badges so that residents may know those garbage men who do good jobs and bad jobs.

Uncle Sam Celebrates At Church

Last Sunday at the Marin City Community Church Sunday School, some one dropped 168 pennies in the Birthday Box. Surprise! Who in Marin City could be 168 years old? It was then announced that the pennies were for Uncle Sam's birthday, and the entire Sunday School sang lustily: "Happy Birthday, Uncle Sam." So say we, all of us.

Next Sunday Dr. Pendleton will preach at the 11 o'clock service, held in the Community Center on, "Come Grow Old Along With Me, The Best Is Yet to Be, the Last for Which the First Was Made."

The Adult Bible Class led by Mrs. Agnes Sampson meets at the Sunday School hour which is 10 a.m.

Boxing, races, horseshow, dance, chance for \$175 in War Bonds — all for \$1 ticket to July 16 all-day show.

Turn In Your Honor Roll Names

Persons who have names to be placed on the Marin City Honor Roll of men and women in the armed forces or the Merchant Marine, should turn them in at The Citizen office or put them in The Citizen news boxes at the market and the community center.

Any resident may have the names of his relatives at war inscribed on the Honor Roll. Sons, daughters, brothers, sisters, husbands, wives, nephews, nieces are all eligible. Just turn in the names and The Citizen staff will see to it that they are inscribed.

Band Pictures Scheduled

The next two weeks schedule of big name band pictures and music for Marin City teenagers was announced this week.

The film and sound showings are every Wednesday evening at 9 p.m. at the teener club house, "399". All teen-age residents of Marin City are admitted free.

On July 12, the evening features "Fiddle Polka" with Lanny Ross; "Good Morning Mr. Zip, Zip, Zip", with Tony Pastor; and "Song of the Islands", with Ray Kinney.

The program on July 19 is "Let Me Off Uptown," Gene Krupa; "School Song", Kings Men; "You're a Luck Fellow, Mr. Smith."

Marin City Girl Married Last Friday

Virginia Lee Downend, the daughter of Mr. and Mrs. Lee Cox, was married last Friday to Robert Lee Brough S. 1C, U. S. N.

The double ring ceremony was performed at the Methodist Church in San Francisco by Rev. Robert Lee Warren.

The couple were attended by the bride's sister, Mrs. Clifford Beutler, and Clair Nietert.

The bride, who works at the Marin City drug store, wore a black and red suit with black accessories. Her corsage was white begonias and red roses.

Now on a 30-day furlough, the groom's future plans are subject to orders from the Navy.

For the duration, Virginia plans to stay on working in the drug store. After the war is over, they will make their home in Kansas City, Mo., where Seaman Brough was in the contracting business.

A novel feature of the wartime wedding is the duplication of Lee in the names of the bride, bridegroom, minister, and the bride's father.

Congratulations

To Mr. and Mrs. Louis Picken, of House 301, on the birth of a baby girl at Ross Hospital. Her name is Barbara Margaret.

Canning Clinic Coming Expert to Demonstrate Here

The A. B. C's of home canning the easy way will be featured at a Canning Clinic in the Community Building, Marin City, at 8 o'clock July 17, under the sponsorship of Marin City Women's Club. P-T-A and VICS, in cooperation with the Pacific Gas and Electric Company, and Standard of California.

Miss Bernice Redington, outstanding home canning expert, will conduct the clinic here. Miss Redington has won widespread acclaim as a conductor of cooking schools on the Pacific Coast for a number of years. She has recently given demonstrations for the San Francisco Chapter of the American Red Cross and has worked out some original canning recipes.

She is the originator of "Chalk Talks," illustrating home canning by means of simple diagrams. Miss Redington's lectures are both informative and entertaining, with her amusing and humorous style of delivery adding interest to the subject.

Predicting a most interesting evening, and urging those

who are interested in attending to be on time, Mrs. Ben Bloomquist, president of the Marin City Women's Club said yesterday: "This year, more than ever before, the need for preserving food at home is urgent. We are advised by the Office of Distribution that as the war progresses, larger quotas of canned fruits and vegetables must be set aside for our armed forces, lend lease, and the liberated countries. Therefore, it becomes the responsibility of every homemaker to assure her family's supply of seasonable foods by safely processing them at home."

"The record made by California women in putting up food last year was outstanding. However, in many cases, due to not following instructions for California, some accidents, food spoilage, or food poisoning did occur. California's objective this year is to get authentic information on approved methods to every homemaker, and it is a privilege to have such an outstanding expert as Miss Redington to provide us with the facts we need."

Hedda Hopper: Looking at HOLLYWOOD

The hand that rocks the cradle gets the spotlight these days. Our movie stars have lost nothing—they've even gained much—by becoming mothers. They were out in the vanguard of the vogue — Betty Grable, Alice Faye, Gene Tierney, and Lana Turner—all glittering names in movieland. And with sincerest flattery the minor glamorettes whipped into line.

GONE BUT NOT FORGOTTEN

A star who has a baby is gone from audiences a year or more. That is, only so far as actually seeing her movies is concerned. She can open the newspapers or magazines any old time and read as much about herself, now that baby-having is the rage, as if she were standing before the cameras on an eight-hour day. Box Office Betty Grable's latest picture, "Pin Up Girl," was finished in September of last year. But Betty stayed in the hearts of fans who followed her progress avidly in every detail.

THE TRAIL BLAZER

Let's go back a few years. It was Norma Shearer who really put babies on the cinematic lap. She was called the first lady of Hollywood then, and, as you know, the first lady can do no wrong. She was also the wife of Irving Thalberg, our top producer.

Twentieth Century-Fox recently put out word that Betty Grable's next picture will be "Diamond Horseshoe," a gilded musical based on Billy Rose's night club. Her costumes will outdo anything Betty has ever had.

WANTED—THE DETAILS

But your fan comes back with "Is it true Betty wore butcher boy smocks, when she was carrying Vicki?" or "How about that formula Victoria Elizabeth James thrives on?"

If you meet Betty she'll talk only about the baby and Harry. "Wait until you get into harness again," I said. "The music will get into your feet. The costumes will bring that certain heady feeling—why, even the smell of the makeup will become incense in your nostrils."

"Sure," said the glamour madonna. She was yesing me, but her mind was not there.

And I keep remembering her remark to Harry James when she found she had a girl baby: "I'll have a boy for you, Harry—honest I will." Just thinking of the loss in millions that those babies will mean is what turns movie moguls' hair gray.

Georgie Jessel is doing a bit of worrying, too. He's wondering about "The Dolly Sisters." He wants Alice Faye and Betty Grable together in that one, just as they were in "Tin Pan Alley."

Alice finished "The Gang's All Here" on July 3, 1943. One year as the calendar goes could be dangerous to a star. But Alice's mail builds, although she's made but two pictures in the last three years. Her fans write about how much more beautiful she is now than before Alice Jr., was born. Even so, it's time for Mrs. Phil Harris to be thinking of her next starring vehicle. She can make one before "The Dolly Sisters" goes on the schedule.

TIME OUT

What of Gene Tierney and Lana Turner? They proved to be quick-change artists from baby tending to picture routine. Lana was gone from Metro 14 months. Came back to "Marriage Is a Private Affair" when Cheryl Christina was 6 months old. Steps into "Women in Uniform" in two weeks' time.

"Heaven Can Wait" was closed out April 27, 1944. In between those dates Gene Tierney lived a down-to-earth interval at Junction City, which included keeping house in an army settlement for husband Lieut. Oleg

Peewee Team to Start Here

Plans are afoot to start a Peewee baseball team in Marin City, announces the Recreation Department this week.

There is already a Marin County Peewee League with teams representing several towns in the area.

Eligible for the team are all Marin City boys up through the sixth grade.

Entrants should see John Batchan at the auditorium in the gym any evening.

Cassini. She gave birth to Daria on October 14 last in a Washington hospital. If any of you girls think you're bright and capable, top that one. Gene plays the title role in "Laura" at the moment; wears the most bizarre modern costumes.

ROASTED WRONG TURKEY

Jerry Lester tells about the end of his father's newspaper career. His father wrote about a new play, saying "This was a turkey peddled two months before Thanksgiving." He didn't know his publisher had helped finance the play... Dame May Whitty finally gets a good part in "Thrill of a Romance" with Esther Williams and Van Johnson. And they'll all have a thrill when Lauritz Melchior starts singing. He's in the same opus.

Fairfax Wood Celebration Next Week

St. Rita's Wood, Fairfax, will be the scene beginning next Thursday evening of the annual Festival of Woods, which is planned by a large group of St. Rita's Church members, assisted by the Rev. Father Peter Bennett, pastor. The "Festivatae Silvae" will continue until Sunday evening, July 16.

Included on the programs for the four days are contests of all sorts for all generations, sales of merchandise made by the members, a wide variety of games and food, and entertainment every night. Vocal selections by Miss Barbara Wendt and Mrs. Delmira Cozza will be features.

Edward Martenson is chairman of the executive committee, assisted by Rev. William F. Dillon, Charles O'Connor and Mrs. Harold Druhan.

It's terrific! Get a ticket to the July 16 all-day show. Dance, horse show, boxing, baseball, \$175 War Bond drawing.

Mrs. Alice Lundquist, who is recuperating from an operation, is staying with Mr. and Mrs. Raymond Sweet. Mrs. Lundquist is Mrs. Sweet's aunt and makes her home in San Francisco.

Support YOUR community newspaper. Get a ticket to the July 16 all-day show.

You can get tickets at the Recreation Office at Gate 3 to the July 16 all-day show.

P. O. Box 556, Marin City, California
Official organ of the Marin City Council

"To do everthing in our power to help win the war. To promote the welfare and community spirit of Marin City."

JAMES SAN JULE, Editor.
DOROTHY SMITH, City Editor.
GALE TAFFINDER, Advertising Manager.

"The Marin Citizen" is delivered each week to the homes of more than 6000 war workers and their families. It is the only newspaper published in the second largest city of Marin County.

Subscription Rate: \$2.50 a year. Advertising rates on application.

Workers, Not Deserters!

We have recently become aware of a dangerous line of thought here in Marin City.

A number of people have been thinking to themselves and saying to their friends, "The war is almost over. Now we can begin to relax. Now we can go home."

Nothing is further from the truth than this kind of unthinking thinking. Proof of that is the fact that Marinship this week announced that within the next two months it would need more than 4000 new workers on the vital tanker building program.

We have heard of families which have already quit the yard to go back home or to go to some other part of the State. We have wondered what our soldiers on the European beachhead would think of those who deserted before the battle was won—for those who leave war production jobs before the victory is won are surely deserters in the face of the enemy.

The war is NOT yet won. Though things look good in Europe, the Nazis still have more than 7,000,000 soldiers with which to throw back Allied armies. Though things look bright in the Orient, we have not yet even come within a thousand miles of the main Japanese armies whose numbers are more than 5,000,000 men.

No, victory is not yet even in sight. There is still the main job to do. And that goes for us here on the home front, too. If ship production decreases (and that is what is happening because of the attitude we are talking about) then the war will be prolonged even further into the future. The best way to hasten the war's end is to stay on the job and to persuade others to do likewise.

Meanwhile we can help with the Marinship tanker program by telling our friends and relatives who are on non-essential jobs to go to work here and help bring victory. Send a copy of this week's Citizen to someone you know. Help recruit him or her to work alongside you at the yard.

Above all, let's not get so over-confident that we let our guard down. There is still a knockout blow in the iron fists of the Axis.

TRAVEL STICKERS OF 1944

Frederick Thompson:

A World Without Alloys Would Be One of Peace

If the leaders and the thinkers of the world really seriously try to carry out the wishes of the vast majority of the people of the world and make future wars impossible, there are many ways that can lead to that goal. Some are great important highways and some are byways, but, as in common things, both have their place. The plan proposed by the President this week that of a new League of Nations, composed of all peace loving nations—a World Council dominated by the Big Four—and a World Court—is one suggestion that will be thought creating and one which the public mind of the country seems much more willing to accept than was the public mind in 1919 and 1920.

Who can look back and still doubt that the results would have been very different had we been members of the League of Nations?

Well, the President's plan is undoubtedly a highway to peace and what follows is a suggestion as to one of the many byways that can help to implement it.

TECHNICAL STAFF

First it must be established that a League of Nations is surrounded by technical staffs composed of experts in all the sciences known to man. There is no knowledge in any field of human development that these experts cannot compile and coordinate within a very brief time and put at the disposal of those who want to study and analyze and turn it to the purposes of peace.

One of the given factors of any study on modern war is that modern war is only possible with modern steel. Steel is without doubt one of the most important products used in what today are the most highly mechanized instruments of death ever devised by man. And not just steel but — and here is the entire point of this paper — **ALLOY STEEL.**

1890 DISCOVERY

The truck, the jeep, the tank, the aeroplane, the battleship, the cruiser, the submarine, the naval guns, the artillery and all the mechanical instrumentalities that serve them would never have been possible had it not been that since about 1890 it has been known that alloys of various qualities change and effect steels which contain them in various

amounts, to an extent undreamed of prior to that date. These alloys are nickle, chromium, tungsten, vanadium, molybdenum, manganese and uranium.

The mixture of one or more of the alloys during the melting process of steel widens the heat treatment of steel and improves its forging quality to a tremendous extent. It makes possible the use of what are known as "high speed" steels for tools.

It makes possible the modern projectile. Without alloy, steel would not be able to take the hard treatment to which ball-bearings are subjected. Armor-plate could not resist the impact of an alloy-steel projectile. On the other hand a projectile without alloy could not pierce a plate of armor that contained the proper alloy.

WAR OF ALLOYS

Today there are practically no metals used in modern warfare that are not alloy-metals. No "blitz" type of war could be carried on without the use of alloys in the mechanisms which must be used to wage the "blitz" type of war.

Moreover, the sources of all the ores that produce these alloys are well known to every mining engineer and metallurgist. There is no mystery about it all. The world knows that the main sources of, for example, nickle, are Canada, Finland and Russia. The sources of wolfram, the chief ore from which the important metal, tungsten, is derived, are Portugal, Spain, Cornwall, Saxony, Lower Burma, the Malay Peninsula, Queensland, Tasmania and the State of Colorado. There are no other places in the world where, as of this date, this ore is to be found, and if new discoveries are made there will be no means by which the knowledge can be kept from all the scientists who may be interested.

Vanadium is an alloy of tre-

6:30-7:30 P.M.—Free Movies, Auditorium.
7:30 P.M.—Sea Scouts, C. D. Building.

FRIDAY, JULY 14—

10:00-1:00 and 2:00-6:00 P.M.—Recreation, Playground.
2:00-5:00 P.M.—Puppets and Theatre construction, Bldg. 398.
6:00-9:00 P.M.—Red Cross Sewing, sponsored by VICS, Marin City School.
6:30-8:30 P.M.—Recreation, Auditorium.
7:00-9:00 P.M.—Boy Scout Troop No. 32, C. D. Bldg.
9:00-12:00 P.M.—Teeners Dance, Auditorium.

THE SOAP BOX

By the Editor

There is every reason to believe that infantile paralysis is carried by the common house fly. It is certain that other diseases are spread by the murderous travels of this all too prevalent insect.

Infantile paralysis is a seasonal disease of our own latitude. It rages in early summer and fall. It appeared year after year in the neighborhood of a certain dairy stable, but vanished when the equipment of the dairy was motorized. Cases are commonly found in the same neighborhood, among people who have had no contact with each other. All of these facts point to the common house fly as the carrier.

FLIES AND POLIO

Polio epidemics occur almost exclusively when flies are abundant. Medical men think it means something that even large numbers of children living together, as in institutions, usually don't get the disease, provided their building are clean and screened against flies, while solitary country children, in areas swarming with flies, get infantile paralysis out of all proportion.

Last year during the terrible infantile paralysis epidemic these facts held true. Deaths among children in country areas where there is little protection against flies were all out of proportion to deaths from the disease in urban areas where protection was better. The finger of suspicion points ever more accurately at the house fly as the carrier.

Here in Marin City we have been lucky. During last year's epidemic there were only three cases of polio in our community. We may not be so lucky again.

NO SCREENS

The lack of screens on our windows is a danger which cannot be minimized. If flies could be kept out of our houses and apartments all of us would be safer.

There are things which all of us can do to stop the menace of the fly. In another part of this week's paper there is a list of requests made by the medical committee of the Marin City Council. These requests involve minimum standards of sanitation and decency. They provide a safeguard against the spread of the disease carrying fly menace. All of us can protect our families and our neighbors' families by following the warnings and advice contained in the medical committee message.

ALL ENLIST

All of us can enlist in the war against the fly this summer. All of us can help stamp out child-crippling polio.

Not many people know that the Marin City Honor Roll was paid for by The Marin Citizen as one of the many public services of the paper.

That's another good reason for buying tickets to the all-day party to be sponsored by The Citizen on July 16. You have a day's fun for \$1 and at the same time you help support YOUR newspaper.

mendous importance and, today, is produced commercially only in Peru, Arizona, South East Africa and Northern Rhodesia and in Colorado.

AN ALLOY PLACE

And so to sum up. Modern war is impossible without alloy steels. The sources of the alloys are limited and known.

Why not a commission under the League of Nations to have absolute control of all sources of alloys at present known or to be discovered? And to have the power to limit shipments to any Nation whose consumption showed any signs whatsoever of exceeding normal peacetime requirements.
